

MOUNTING & ASSEMBLY GUIDE FOR TECHNICALLY BUILT® VERTICAL WALL MOUNT FOR LEGO® ICONS U.S.S ENTERPRISE

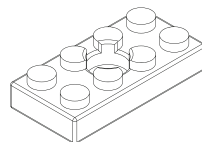

TBMNT10356V / TBMNT10356V-GWP

Install the ship mount using the included large white anchors and large #8 screws. Hold the mount up in the location you wish to mount it while holding a level on top before making your drill marks. Once the marks are made, drill a hole using a 1/4" drill bit for the anchors. No anchors are needed if installing into a stud.

Screw the mount to the wall (*Use a screwdriver to do final tightening to avoid damage to the mounts.*)

1

NAME PLACARD MOUNT

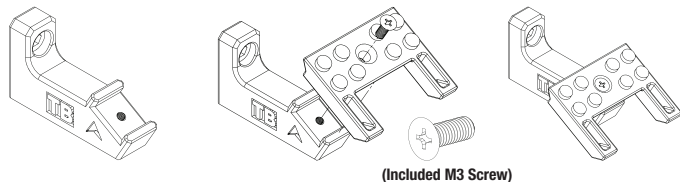

MINIFIG SHELF MOUNT

Install the Name Placard Mount & Minifig Shelf Mount anywhere you want. Start by drilling single holes for the the small anchors using a 3/16" drill bit. Screw in the mounts using a screw driver while keeping them level. Display the name placard and minifig platform onto their respective mounts.

2

(TBMNT10356V-GWP ONLY)

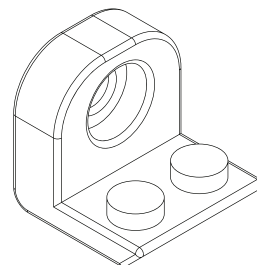

Install the GWP Shuttle mount to the wall anywhere you want. Start by drilling a single hole for the small anchor using a 3/16" drill bit. Screw in the mount using the small screw and a screw driver while keeping them level. Using the included small M3 screw tighten the baseplate down to the GWP Shuttle mount using a small phillips screwdriver (Not Included.) Mount your GWP shuttle on the mount.

3

(TBMNT10356V-GWP ONLY)

Install the GWP Single Minifig Mount anywhere near the GWP Shuttle. Start by drilling a single hole for the small anchor using a 3/16" drill bit. Screw in the mount using the small screw and a screw driver while keeping them level. Display the single GWP Minifig onto the mount.
